

The following questions and answers are in response to feedback received through our [Back To School Feedback Form](#).

Please use this form for all comments and questions relating to school safety procedures.

Some schools / colleges are closing. Why isn't Tupton Hall?

No schools in England are closing. Some students or groups of students may be asked to isolate following positive cases or instructions to isolate through Test and Trace. We follow Public Health guidance fully on every individual case in school. We appreciate sending students home can be worrying and we continue to try to make these situations as manageable and easy to understand as possible. Please see the PowerPoint below which outlines the latest changes to safety procedures in school.

[PRESENTATION: Reducing the risks of spreading coronavirus \(covid-19\) in our school](#)

My child is isolating / off school ill. How will they receive work at home?

We have developed learning resources for all lessons which will be available through 'Timetable Announcements' on students' Class Charts accounts. Live and recorded lessons are increasing in number and live lessons will always be available should a whole year group be sent home. We thank you for your patience and co-operation in case of any initial teething problems. Please be assured that teaching staff are working hard to provide work for all students during what is a huge undertaking.
